

Heavy Duty Fork & Grab (For 3 Tonne Machines)

Our CF07 range of fork and grabs are the power houses of all grabs available on the UK market, built specifically to meet the demanding needs of 2 tonne machines.

With hydraulic cylinders taken from the tough 4 in 1 bucket, and 38mm cylinder and pivot pins, the CF07 range is British built to a quality you can trust

Model	Width	Height	Depth	m ³	CuFt	Kilos	Tines	No
CF07HDW	2450 (8')	1300	1190	2.13	75	700	Hardox	10
CF07W	2450 (8')	1300	1190	2.13	75	605	2" round	11
CF067W	2450 (8')	1300	1190	2.13	75	595	KV type	11
CF07HD	2286 (7'6")	1300	1190	1.98	70	605	Hardox	9
CF07	2286 (7'6")	1300	1190	1.98	70	485	2" round	10
CF07K	2286 (7'6")	1300	1190	1.98	70	475	KV type	10
CF07AHD	2133 (7')	1300	1190	1.85	65	500	Hardox	8
CF07A	2133 (7')	1300	1190	1.85	65	460	2" round	9
CF07AK	2133 (7')	1300	1190	1.85	65	450	KV type	9

Features

Tine Options, to suit your application, we offer a choice of KV style, Hardox or 2" round base tines and KV style or Hardox Grab tines. All KV style tines are bushed in the frame

Fork Back, as standard built with 'tube style' for maximum strength and viability. However we can build with middle plated or the whole fork back plated

Grab Stop, are fitted for the opening and closing of the grab to protect the hydraulic cylinders

Brackets, integral to the design and strength of the attachment

Wide Opening Grab, 1760mm vertical height
