

TELEHANDLER CONCRETE SKIP

With fork pockets and lifting points

Presentation: This concrete skip has been specially designed for the loading under a concrete mixer (low loading height = 730 mm). The skip is fitted with a 1 meter long hose.

Gate operation: By lever or directly on the gate. The lever is adjustable in front or rear.

Means of handling: This skip is fitted with 2 way fork pockets with safety locking system to be handled by a telehandler. The skip can also be handled with a crane thanks to its lifting points

BSB skip filled from a site concrete mixer
