

## Fork Tip Highlighter - FBC

The FBC fork tip highlighter is a simple, bright-coloured foam safety attachment that fits over forklift fork tips to improve visibility. It highlights the forks' ends, helping to prevent accidents caused by unseen forks – a serious hazard to pedestrians in busy areas.

Low-cost and easy to fit, it's essential for any workplace with forklift traffic. Reduce risk and give peace of mind.

Bright, durable foam – visible day or night. A must-have for safety-conscious operations..

Model Ref	Dimensions (W x D x H mm)	Material	Weight (kg)
FBF-C	1000 x 85 x 100	Bright Yellow Foam	1

Why Fork Tip Highlighter Matters	Typical Hazrd Prevention
Makes fork tips highly visible to pedestrians	Pedestrians walking into unseen fork tips
Reduces risk of serious injury in busy areas	Collisions in narrow aisles or loading bays
Low-cost way to enhance forklift safety	Accidental contact during reversing
Bright colour stands out day or night	Injury from low-visibility in poor lighting
Easy to fit – slides on standard forks	Fork damage from unexpected impacts
Durable foam withstands daily warehouse use	Workplace accidents in high-traffic zones

- ### Typical Applications
- Warehouses & distribution centres
  - Manufacturing & factory floors
  - Loading docks & vehicle yards
  - Retail & supermarket back areas
  - Construction sites & depots
  - Forklift-pedestrian interaction areas

## Features & Benefits

- Bright foam highlights fork tips for improved visibility
- Reduces risk of pedestrian accidents from unseen forks
- Easy to fit – slides on/off standard forks
- Low-cost safety solution for any forklift environment
- Durable, weather-resistant foam for long service life
- Visible day or night – enhances workplace safety

Quick Installation Guide	
1. Stop forklift and apply parking brake	4. Check visibility from all angles
2. Slide FBC fender over each fork tip	5. Remove for cleaning or storage as needed
3. Ensure fender sits securely and evenly	6. Inspect regularly for wear
