

Auto Grip Drum Handler

The FDH-6145 Auto Grip drum handler is designed for safe, single-operator handling of steel and plastic drums. Spring-and-cam actuated jaws grip with pressure equal to the drum weight, allowing quick pick-up, transport, and unloading up to 680kg.

Rubber-lined jaws adjust to fit most smooth-sided drums. Heavy-duty T-screws secure it to forks.

Choose the FDH-6145 for fast, reliable drum handling with no manual intervention.

Specification	Length (mm)	Width (mm)	Height (mm)
Dimensions (mm)	790	660 - 1015	180
Net Weight (kg)		46	
Load Capacity (kg)		680	
Drum Type		Steel	
Drum Diameter (mm)		460 - 710	
Drum Capacity (gallon)		30 / 55 / 85	
Function - Grip		Gravity and Cam Actuated Jaws	
Jaw Size - W x H (mm)		380 x 75	
Fork Pocket Size - L x W x H (mm)		425 x 140 x 50	

IMPORTANT NOTE:

Not suitable for fibre drums (they can lose shape when gripped). For tapered/egg-shaped drums, see our Mauser range.

Features & Benefits

- Rubber-lined jaws adjust to fit most smooth-sided drums (460-710mm diameter)
- Spring-and-cam actuated grip – pressure increases with load weight
- Heavy-duty T-screws for secure fork attachment
- Fully automatic operation – single operator handles pick-up, transport, and unload
- Simple design with few moving parts – low maintenance

Model Ref

FDH-6145

Application

Chemical & pharmaceutical storage

Food & beverage processing

Warehouse drum storage & retrieval

Manufacturing & distribution centres
