

Ideal for safe and stable handling of loads which are longer than the forklift forks, our fork extensions offer long reach and stabilising capabilities, whilst retaining the manoeuvrability of the lift truck for conventional operating.

Manufactured from heavy duty 5mm thick steel with additional 8mm thick internal strengthening plates, all our fork extensions incorporate a fully rounded toe, with heavy duty capping, for easy entry into and out of loads or pallets.

Model Ref	To Suit Max Fork Section (mm)	Overall Extension Wdth x Thickness (mm)	SWL @ Load Centre
FEX-80	80 x 40	108 x 50	2000kg @ 500mm
FEX-100	100 x 50	136 x 65	3000kg @ 500mm
FEX-125	125 x 50	161 x 65	3400kg @ 500mm
FEX-150	150 x 60	186 x 75	5800kg @ 600mm
FEX-200	200 x 75	236 x 90	8000kg @ 600mm

Please Note: Fork extension length should not exceed existing fork length by more than 66% (British Standards ISO 13284:2022)

Features & Benefits

- Manufactured from heavy duty 5mm thick steel for maximum longevity
- Additional 8mm thick internal strengthening plates for added durability
- Fully rounded, heavy duty, toe section for easy entry into and out of loads or pallets
- Removable heel pin offers 'drive in' entry, negating the need for manual handling whilst complying with manual handling regulations
- Rear strap offering closed base design for added safety, whilst in keeping with BS EN recommended standards
