

Fork Heel Wear Protectors - FHP

Fork Heel Wear Protectors

The FHP fork heel wear protectors are a unique, patented UK design to prevent costly fork damage from ground dragging. Manufactured from high-grade cast steel, they fit neatly to the heel for long-lasting protection.

Easy to install in minutes with no truck modifications or warranty implications. Adjustable and reversible for extended use.

Protect your forks and reduce downtime – reliable, compliant, and built for demanding environments.

Measurements	To Suit Fork Width	Material	Weight (Approx)	Key Dimensions
FHP-100	100mm (4")	Cast Steel	5kg per pair	Fits all standard fork heels
FHP-125	125mm (5")	Cast Steel	6kg per pair	
FHP-150	150mm (6")	Cast Steel	7kg per pair	

Typical Applications

Warehouses with frequent ground contact

Outdoor yards and construction sites

Heavy-Duty material handling operations

Any forklift fleet looking to reduce maintenance costs
