

## Forklift Magnetic Sweeper - Magnasweep

The Magnasweep forklift magnetic sweeper is ideal for keeping car parks, container depots, and warehouses free from hazardous metal debris like swarf, nails, nuts, and bolts. It slides easily onto standard forks for quick, simple operation.

Corrosion-resistant and robust design picks up metal from 4-5" off the ground. Non-magnetised cleaning strip allows easy debris removal.

CE-marked with Certificate of Conformity. Essential for safety and cost savings in industrial areas.

Measurements	Magnet Width (mm)	Magnet Depth (mm)	Weight (kg)
FMM-1200	1200	115	25
FMM-1500	1500	115	39
FMM-1800	1800	115	56
FMM-2000	2000	115	73

### Typical Applications

Factory floors and manufacturing sites

Car parks and loading bays

Construction yards and demolition areas

Warehouses and distribution centres

Recycling centres and scrap yards

Outdoor industrial hardstandings

**WARNING:** Magnets may interfere with the function of cardiac pacemakers and implantable cardioverter-defibrillators (ICDs) as well as credit cards, watches and other electrical devices

Minimum safe distance = 1m

## Features & Benefits

- Strong magnetism picks up metal debris from 4-5" off the ground
- Corrosion-resistant, robust construction for long service life
- 'T' screw retention ensures safe forklift attachment
- Non-magnetised cleaning strip for easy debris removal
- Simple slide-on design – quick to fit and remove

### Fork Sizes

To Suit Max Forks

180mm x 70mm

Fork Spread (ctr-ctr)

650mm

### Pull Force From Ground

4 to 5 Inches

### Typical Usage

Nails and Screws

Metal Shavings

Steel Wire & Offcuts

Nuts, Bolts & Washers
