

Magnetic Sweeper - Easy Clean

Forklift Magnetic Sweeper - Easy Clean

The FMM-HD heavy-duty easy clean magnetic sweeper is built for tough industrial use, picking up large ferrous tramp metal from scrap yards and similar sites. Its robust design handles heavy debris with a strong magnetic pull from 150mm (6") off the ground.

Quick-release handle makes cleaning effortless – deposit collected metal straight into waste skips. Corrosion-resistant and durable.

CE-marked with Certificate of Conformity. Ideal for high-volume metal debris clearance.

Measurements	Magnet Width (mm)	Magnet Depth (mm)	Magnet Height (mm)
FMM-1200-HD	1200	300	200
FMM-1500-HD	1500	300	200
FMM-1800-HD	1800	300	200
Typical Applications			
Scrap yards and metal recycling centres			
Construction & demolition sites			
Steel fabrication and manufacturing yards			
Heavy industrial sites with tramp metal			
Container depots and loading bays			
WARNING: Magnets may interfere with the function of cardiac pacemakers and implantable cardioverter-defibrillators (ICDs) as well as credit cards, watches and other electrical devices			
Minimum safe distance = 1m			

Features & Benefits

- Strong magnetism picks up large metal debris from 150mm (6") off the ground
- Easy clean quick-release handle – minimal effort to deposit debris
- Large 300mm wide corrosion-resistant magnetic surface
- Robust heavy-duty industrial construction for long service life
- 'T' screw retention for safe forklift attachment

Fork Sizes

To Suit Max Forks :
180mm x 70mm

Pull Force From Ground

6 Inches

Typical Usage

- Steel Offcuts & Scrap
- Tramp Iron
- Large Nails & Screws
- Ferrous Fragments
