

Fabric Shoes Sleeves

Fork Sock Protection Covers (FSS) offer a low-cost, effective way to protect forklift forks and delicate loads. These durable polyester sleeves reduce scratches, damage, and marks on painted or fragile items during handling.

Simply fitted and secured with cambuckle tie-backs, they can be made to suit any fork size. Bright visibility enhances safety.

Choose FSS covers for reliable, reusable protection that extends equipment life and safeguards products

Measurements	To Suit Fork Width (mm)	To Suit Fork Length (mm)
FSS-100-1200	100	1200
FSS-100-1500		1500
FSS-100-1800		1800
FSS-100-2000		2000
FSS-125-1200	125	1200
FSS-125-1500		1500
FSS-125-1800		1800
FSS-125-2000		2000
FSS-150-1200	150	1200
FSS-150-1500		1500
FSS-150-1800		1800
FSS-150-2000		2000

Suggested Applications

Painted or coated metal products

Plastic mouldings and components

Finished wood or laminate goods

Glass or acrylic sheets

Powder-coated or anodised items

Electronics and packaged consumer goods

Automotive parts (body panels, trim)

Retail display items

Features & Benefits

- Manufactured from durable polyester
- Helps reduce damage and scratches to products handled by forklift forks
- Cambuckle ties provide a secure captive fitting

Important Note: Made from robust polyester fabric, FSS Fork Sock Protection Covers are ideal for protecting against scratches and marks on delicate or painted surfaces. They are best suited to **lightweight and non-abrasive loads** to avoid risk of tearing.
