

GenieGrips® Cushions are the ultimate solution for minimizing damage caused by impact when goods come in contact with forklift tines.

These cushions act as a protective barrier, reducing friction and absorbing shock to prevent costly damage to both the goods and the forklift.

With their simple installation process and powerful magnets, GenieGrips® Cushions are a must-have accessory for any forklift operator looking to increase efficiency and protect their equipment.

MEASUREMENTS	100MM	125MM	150MM
Cushion Width - External	122	147	175.5
Cushion Width - Internal	102	127	152
Cushion Thickness	13.5		
Cushion Side Wall Height	24		
<b>RUBBER</b>			
Temperature Range	-40°C to 110°C		
Compound	80D (Shore A) NBR HSR (Nitrate)		
<b>STEEL</b>			
Material	Carbon Mild Steel		
Coating	M5 Internal Thread		
<b>MAGNETS</b>			
Rubber Casing	Thermo Plastic Rubber		
Neodymium Magnets	66mm OD x 8.5mm Thick

## Features & Benefits

- Prevention of damage to goods
- Can be used as a safe bumper
- Non marking rubber compound
- Environments from -40°C to 110°C
- Oil resistant compound
- Easy to fit and remove
- Magnets for secure positioning
- Easy to store when not in use
- Bright visible yellow colour
