

Introducing GenieGrips® Stik-It Pads, the ultimate solution to safeguard your products and prevent accidents. These slim, yet highly effective pads are made from bright yellow, compound rubber, offering a patterned anti-slip tread for unparalleled grip and stability.

By using GenieGrips® Stik-It Pads, you can minimize the risk of slipping loads, protecting your products from damage and reducing the chances of injuries. Trust in the reliability and durability of GenieGrips® Stik-It Pads to keep your goods secure and your business running smoothly.

MEASUREMENTS	
Pad Width	100mm
Pad Width - Tip	80mm
Pad Thickness	7mm
Pad Thickness - Tip	2mm
Pad Length	1150mm
RUBBER	
Temperature Range	-40°C to 110°C
Compound	80D (Shore A) NBR HSR (Nitrate)
BONDING AGENTS	
Double Sided Adhesive Tapes	PE coated, Solvent Acrylic Adhesion to Steel 2:5 N/25mm Shear Strength: 10-15 Hours Service Temperature -30°C to 120°C Applying Temperature +10°C to 40°C

Features & Benefits

- Prevention of damage to goods
- Protection of tine surface
- Non marking rubber compound
- Environments from -40°C to 110°C
- Oil resistant compound
- Adheres directly to forklift tines
- Anti-slip surface
- Easy to fit and remove
- Magnets for secure positioning
- Easy to store when not in use
- Bright visible yellow colour
- Can be easily trimmed to size

Industry Applications

- Finished Goods
- Chemicals & Lubricants
- Food & Drink
- General Warehouse Storage
- Frozen & Refrigerated
- Metal & Plastic
