

Forklift Multi Sweep - 270

Multi Sweep 270 Forklift Sweeper

The Multi Sweep 270 is a powerful hydraulic forklift road sweeper for heavy-duty yard and road cleaning. It combines a main brush with side brushes for wide, efficient coverage, collecting debris into a large hopper.

Hydraulic drive ensures reliable performance with no belts or chains. Easy to attach and operate.

Ideal for industrial sites, construction yards, and large outdoor areas requiring thorough sweeping.

Model Ref	Sweeping Width (mm)	Hopper Capacity (Ltr)	Hydraulic Flow Required (Ltr/Min)
Multi Sweep 270	1200	270	25 -30
Water Tank Capacity (Litre)		200	

Typical Applications

Industrial yards and manufacturing sites

Construction sites and aggregate handling areas

Warehouses and distribution centres (outdoor loading bays)

Large car parks and retail estates

Recycling centres and waste facilities

Municipal depots and highways maintenance

NOTE: Water Spray System (200 Litre), gravity-fed, fitted as standard

Weight

Min Unladen - 350kg

Max Unladen - 550kg

Optional Extras

Poly/Wire kerb side brush

Diesel power pack engine

Features & Benefits

- Hydraulic drive – no belts/chains, reliable and low maintenance
- Wide 1200mm sweeping path with main and side brushes
- Large 270-litre hopper for extended cleaning sessions
- Fully enclosed skirting ensures debris is contained
- Floating broom system adapts to rough terrain
- Easy forklift attachment – quick setup and removal
- Robust construction for demanding industrial use
