

Wheelie Bin Rotator - Quick Hitch

Introducing our Quick Hitch Wheelie Bin Rotator, the ultimate attachment for your Telehandler that effortlessly handles and tips wheelie bins on-site.

With custom quick hitch brackets, the rotator seamlessly integrates with your telehandler for a smooth and efficient operation.

Safety is our top priority - the rotator securely fastens bins using webbing and ratchet straps, and offers multiple rotation options.

Upgrade your waste management process with our reliable and efficient solution, saying goodbye to hassle and hello to a streamlined process.

Model Ref	Capacity (kg)	To Suit Wheelie Bin Size (Litre)	Method of Rotation
QH-WBH-DTR-1	500	660 - 1100	Crank Handle
QH-WBH-DTR-2	500	660 - 1100	Loop Chain
QH-WBH-DTR-HYD	500	660 - 1100	Hydraulic

Features & Benefits

- Suitable for use with 660 - 1100 litre wheelie bins, offering flexibility of use over the most popular size of large wheelie bins
- High quality gearbox (hydraulic option also available) allows wheelie bins to rotate in mid air, therefore allowing access to all areas of the wheelie bin for cleaning or repair
- Designed with few moving parts allows for low service and maintenance costs
- Supplied with quick hitch brackets to suit your make and model of Telehandler
