

With automatic locking / unlocking to the forks, the Teleskip offers ultimate safety and efficiency and negates the need for the driver to leave the cab.

Standard pallet width forks reduces the need for fork adjustment, again reducing the need for the driver to exit the cab.

The Teleskip offers a durable and robust skip, capable of withstanding harsh and arduous site conditions.

Reinforced top edge adds additional strength whilst offering protection from falling objects from above (such as bricks being dropped into the skip)

Model Ref	Capacity (Ltr)	SWL (kg)	Height (mm)	Width (mm)	Length (mm)	Weight (kg)
TS-550	550	2000	920	1290	1390	146
TS-800	800	2000	1020	1240	1660	164
TS-1200	1200	2000	1170	1370	1840	198
TS-1700	1700	2000	1170	1840	1840	230

Features & Benefits

- Auto locking / unlocking behind fork heel for safety and improved efficiency
- Standard pallet width fork pockets
- Fully reinforced top edging for added strength
- Full length pocketed tunnels to cater for rough handling
- 4 way entry allows the skip to be handled from any angle
