

Forklift Towable Salt Spreader

The SSM-190 towable salt spreader is perfect for towing behind vehicles with a standard ball hitch or towing eye. Mechanically driven with no electrical or auxiliary connection required, it delivers simple, effective ice gritting.

With a large 190 litre hopper, it keeps operations moving through winter. Versatile for summer seed spreading too.

Choose the SSM-190 for reliable, year-round performance.

| Model Ref | Hopper Width (mm) | Hopper Height (mm) | Overall Height (mm) |
|-----------|-------------------|--------------------|---------------------|
| SSM 190L | 860 | 590 | 1120 |

NOTE: The SSM 190L Towable salt spreader is only suitable for use with free flowing fine granular white rock salt

Capacity (Ltr)

190

| Enhanced Feature | Benefit |
|---------------------------|--|
| Mesh Guard | Mesh guard protects operator from spinning actuator |
| Rain Cover | Keeps salt dry in wet conditions for consistent performance |
| Heavy-Duty Wheel Assembly | Larger tyres for better grip; shafted axles with keyway inserts, secured by nut and cotter pin – superior durability over bolt-through designs |

Weight (kg)

90

Features & Benefits

- Large 190-litre capacity for efficient spreading over large areas
- Axle-driven mechanism – no hydraulic or electrical connections
- Easy attachment with tow ball hitch or pin for quick setup
- Mesh guard protects operator from spinning actuator
- Robust heavy-duty wheel assembly with larger tyres for improved grip
- Low maintenance design for reliable winter use
