

# Bucket Brush

With a galvanised body and adjustable frame, our range of bucket brushes fit into most Telehandler buckets for quick and easy yard sweeping.

Hard wearing, reverse action poly brushes offer low cost and an effective clearing solution. Improvements for 2016 see a new bristle design which eliminates the need for spacers. This means extra bristles can be added onto the shaft, effectively increasing the sweeping capability of the brush

Model	Description
<b>BS60</b>	Hydraulic Bucket Brush (to fit 6' bucket) c/w mounting brackets
<b>BS66</b>	Hydraulic Bucket Brush (to fit 6'6" bucket) c/w mounting brackets
<b>BS70</b>	Hydraulic Bucket Brush (to fit 7' bucket) c/w mounting brackets
<b>BS76</b>	Hydraulic Bucket Brush (to fit 7'6" bucket) c/w mounting brackets
<b>BS80</b>	Hydraulic Bucket Brush (to fit 8' bucket) c/w mounting brackets
<b>BS86</b>	Hydraulic Bucket Brush (to fit 8'6" bucket) c/w mounting brackets

## Features
