

Drum Grabs (FDHM Series)

The Mauser drum handler is designed for handling Egg Shaped 210 litre plastic mauser drums. Fully automatic in operation, the mauser drum handler grips the drum at the base and when lifted, the weight holds the drum in place. An upright support also helps provide stability to the drum whilst being lifted. With screw retaining clamps for safe securing the drum handler to the forklift forks, the mauser drum handler comes CE marked, fully tested and certified to comply with the latest Health & Safety Regulations.

Model Ref	Capacity (kg)	To Suit Drum Type	Max Fork Size (mm)	Fork Spread (mm)
FDHM-1	400	4	130 x 70	585
