

Rim Grip Drum Handler - Mauser

Designed for handling open top plastic Mauser (egg-shaped) drums, this rim grip drum handler comes fitted with a gripping head that allows the drums to be picked up via the drum lip.

The ideal attachment for safely handling tapered 'egg-shaped' Mauser drums that are packed tightly together

Model Ref	Capacity (kg)	No of Drums	Drum Type (210 litre)	Max Fork Size (mm)	Weight (kg)
PB-1-MAUSER	750	1	Mauser	130 x 70	80
PB-2-MAUSER	1500	2	Mauser	130 x 70	115

Features & Benefits

- Suitable for use with 210 litre Mauser (egg-shaped) plastic drums
- Large fork pockets accommodating most forklift forks allows for simple 'drive in' operation
- Simple design with few moving parts allows for minimum maintenance and service costs
- Fully automatic in operation, reduces manual handling time and costs
- Zinc plated screw clamps safely retains the attachment to the truck forks
- 'CE' marked and supplied with Certificate of Conformity for health & safety regulations
