

Ideal for handling boxes and flat packed material

The Euro Tipping Pallet provides a stable heavy-duty platform for shifting loose objects around industrial environments. The self-tipping unit, designed for arduous service, is activated by releasing a spring mechanism.

Typical applications include the offloading of balers and other items that need to be discharged from the forks of the truck

Model Ref	FM-ETP
Capacity (kg)	1000
Length (mm)	1000
Width (mm)	1250
Height (mm)	160
Weight (kg)	68

Features & Benefits

- Safe and secure whilst in use
- Heavy duty construction, ideal for working in the most arduous of conditions
- Simple and straightforward operation
- Self latching tipping mechanism to help speed up productivity
