

# Hydraulic Drum Loader (FDH Series)

The hydraulic drum loader with a lifting height of 1640mm is the ideal solution for easy loading of drums into the back of vans or lorries eliminating the need for manual handling and the associated costs and injury risks. Suitable for a large variety of rimmed drums, the drum loader is effortless in its operation and can easily be disassembled for small carton storage.

Model Ref	Capacity (kg)	Lifting Height (mm)	Drum Size (Gallons)	Weight (kg)
FDH-WA30B	300	1640	55	70

### The perfect solution to drum lifting and drum turning

- ✓ Ergonomic lift and transport of drums on and off pallets
- ✓ Suitable for use with poly, steel & plastic drums
- ✓ Spring loaded clamp securely holds any rimmed drum
- ✓ High lifting height for ledge of car or van
- ✓ Compact design and minimal effort operation
- ✓ Disassembling easy when storage space is at a premium
