

Ergonomic Drum Truck (FDH Series)

The Ergonomic drum handler is designed to lift and transport poly, steel or fibre drums on or off pallets without the need for manual handling. Designed to lift any rimmed drum, the drum handler comes with adjustable leg height to accommodate different pallet heights. With swivel wheels for easy positioning, the Ergonomic drum handler is the ideal solution for pedestrian powered drum handling.

Model Ref	Capacity (kg)	Lifting Height (mm)	Lifting Height Per Stroke (mm)	Drum Size (Gallons)	Weight (kg)
FDH-DT400	400	1070	12	55 & 85	100
