

This forklift towable salt spreader is perfect for towing behind vehicles with a standard ball hitch or towing pins.

With no electrical or auxiliary connection required, this mechanically driven salt gritter is simple yet effective for all ice gritting applications.

A large 190 litre capacity hopper ensures this towable spreader will help keep your operations moving during the winter months.

This spreader can also be used in the summer months for seed spreading

Model Ref	Capacity (litres)	Hopper Width (mm)	Hopper Height (mm)	Overall Height (mm)	Weight (kg)
SSM-190	190	860	590	1120	90

Features & Benefits

- Axle driven, requiring no belts, chains or electrical connection
- Large 190 litre capacity hopper produced from 3mm pressed steel for durability
- Supplied with towing eye and hitch for tow ball, making it suitable for a range of vehicles
- Galvanised actuator ensures the salt does not clog, thus allowing for a smooth even spread
- Flow control lever which allows the operator to control the spread and coverage
- Mounted on large pneumatic tyres

Suitable for use with dry white rock salt only
