

Designed for collection of ferrous items and debris such as nails, screws, nuts, bolts and scrap metal etc, the towable magnetic sweeper is simply and easily connected to the forklift truck.

Suitable for sweeping large areas, even with rough terrain, the sweeper comes with a magnet release lever, solid rubber tyres and requires no electrical power supply for operation.

Model Ref	Width (mm)	Depth (mm)	Height (mm)	Operating Clearance
<b>FMM-1200-TOW</b>	1200	1425	400	75
<b>FMM-1500-TOW</b>	1500	1425	400	75
<b>FMM-1800-TOW</b>	1800	1425	400	75
<b>FMM-2000-TOW</b>	2000	1425	400	75
<b>FMM-2200-TOW</b>	2200	1425	400	75

## Features & Benefits

- Automatic ferrous metal removal system offering simple operation
- Solid rubber, heavy duty tyres suitable for use in heavily contaminated areas
- Simple attachment to either tow ball or eye tow bar mount
- No power supply needed allowing magnet to be used with no electrical hook up required
- Robust design offers long and trouble free operational life
