

Why buy Contact crane slung safety cages ?

No Quibble Guarantee:

If you are dissatisfied in any way with your Contact crane slung safety cage's performance, return it to us, and we will refund you in full.

Tested & Certificated:

All Contact's crane slung safety baskets are 'CE' marked, fully tested and and come supplied with Certificates of Conformity for compliance with Health & Safety regulations.

Fully Compliant:

You can rest assured that when you buy a crane slung safety cage from Contact, it will be manufactured to comply with the latest regulations. All of Contact's crane mounted safety cages comply with BS EN 14502 regulations (*Cranes, Equipment for lifting of persons. Suspended baskets*)

Lifting Chains Supplied:

It's not just the cage that will be supplied when you purchase a Contact crane slung safety cage, all baskets are also supplied with a four legged overhead chain, suitable for crane use. The chain sling assemblies attachment points have also been designed to ensure the chains are positioned away from personnel for added safety.

No Danger From Falling Objects:

To eliminate any possible risk of injury from falling objects from above, Contact's crane slung man riding baskets all come designed with a robust and strong overhead guard.

Long Service Life:

The construction of Contact's crane slung safety baskets utilises durable mild steel, which offers long service life properties.

Can Be Positioned With Forklift:

Although under the regulations crane slung safety cages are not allowed for use when it comes to transporting personnel via a forklift, Contact's crane slung cages do come with fork strirups for safe and stable forklift positioning only

We hope the above helps demonstrate the quality and safety features of a Contact crane slung safety cage, and welcome the opportunity to supply you with a high quality man riding basket to suit your working at height requirements.
