

Why buy Contact's Forklift Hooks ?

No Quibble Guarantee:

If you are dissatisfied in any way with your Contact forklift hook attachments performance, return it to us, and we will refund you in full.

Tested & Certificated:

All Contact's forklift hooks are 'CE' marked, fully tested and and come supplied with Certificates of Conformity for compliance with Health & Safety regulations.

Low Maintenance:

With a simple yet effective design, Contact's forklift hook attachments offer low maintenance and operating costs.

Fixed or Adjustable Design:

Available in either an adjustable design where the forklift hook can be positioned anywhere along the fork length, or in a fixed length design, where the forklift hook is pinned behind the heel of the forklift fork, Contact's forklift hook attachments offer the perfect choice depending on the load handling requirements.

High Quality Hooks:

All of Contact's forklift hook attachments come supplied with Grade 10 high quality, load bearing swivel hooks.

Easy Fitment:

Due to the lightweight design of Contact's forklift hook attachments, the units can be easily manually handled and fitted to the forklift forks.

Safe:

To make sure Contact's forklift hooks are safely secured to the lift truck forks, dependant upon the model chosen, adjustable or fixed design, Contact's forklift hook attachments utilise either 'T' screw or heel pin retention.

We hope the above helps demonstrate the quality and safety aspects of a Contact forklift hook attachment, and in doing so, we welcome the opportunity to supply you with a high quality forklift hook that will assist in your load handling requirements
