

Why buy Contact's triangular fork sleeves ?

No Quibble Guarantee:

If you are dissatisfied in any way with your Contact triangular fork sleeves performance, return it to us, and we will refund you in full.

Tested & Certificated:

All Contact's forklift triangular fork sleeves are 'CE' marked, fully tested and come supplied with Certificates of Conformity for compliance with Health & Safety regulations.

Easy Handling Of Rolls:

With an angled face design, rolls products such as paper rolls etc, can easily be transported using the forks of the lift trucks, when fitted with a pair of Contact's triangular fork sleeves.

Complies With Regulations:

Designed to comply with BS EN regulations, all of Contact's triangular fork sleeves encompass a rear 'closed base' strap design to ensure the sleeves do not ride up the back of the forklift forks.

Secure Fitting:

To ensure the fork sleeves are safely secured to the forklift forks, Contact's triangular fork sleeves all come supplied with heel pin retention, locking the fork sleeves to the back of the fork.

We hope the above helps demonstrate the quality and safety aspects of Contact's triangular fork sleeves, and welcome the opportunity to supply you with a high quality pair of fork sleeves to assist in your roll handling requirements
