About Us

Established in 1974, we entered the material handling market as one of very few suppliers, with an initial product range of forklift scoops, fork extensions and lifting jibs. Our product range has grown since those early days, and we now offer one of the largest ranges of material handling equipment in the UK.

Quality has always been at the core of our business, and we pride ourselves on offering our customers the very best products which provide true value for money.

Our enviable reputation in the industry is a result of consistently providing the highest standards of services to our customers.

1985 - Early model drum rotator

UKAS Accredited

Our impact on the environment, small that it may be, has not gone overlooked by our Health & Safety manager here at CONTACT. We're UKAS accredited for the environmental standard BS 8555-2003 under the British environmental management system.

Introduction

We have been designing and manufacturing our range of attachments, equipment, and accessories from our UK base for over forty years, and are proud of our enviable reputation for delivering the highest quality products and service to our customers world-wide.

As an ISO 9001-2008 accredited company you can be assured that each one of our products complies with the most stringent quality and environmental standards – providing you with the utmost confidence and trust in us.

Highly experienced in international trade, we have a detailed knowledge of all processes and procedures, and can provide all required documentation including Certificates of Origin and Commercial Invoices. We also offer a document translation service where needed.

We have an extensive network of overseas agents operating across more than 150 countries which, combined with our innovative technology and up-to-the-minute transport methods, enables us to provide the most comprehensive, personal, and cost-effective service.

Some of our clients include

BP Plc | Castrol | Esso | Etihad Airways | Singapore Airlines | NATO | Gulf Oil

Why We're the Best

- ✓ **Dedicated design department utilising SolidWorks (3D CAD)**
- ✓ **Combined over 100 years of engineering experience ensuring that you're in safe hands**
- ✓ **Proven Customer Approval Process**
- ✓ **Products can be tested for strength and safety, and the results fully-analysed**
- ✓ **Studies simulate the real-world performance of solid, thin-walled, and structural features**

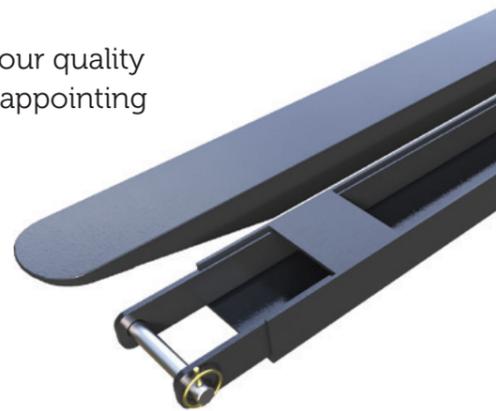

Become a Partner

Having established a network of experienced partners who re-sell our quality range of fork-lift attachments in Europe, we are now focussing on appointing a number of companies to work with us across the MENA region.

The UAE has been selected as our launch pad into this market place following detailed marketing research and based on past sales in the region.

We require 3 dynamic companies to re-sell our products and services to customers in 3 specific market sectors:

Construction	Logistics	Oil and Gas
Top Selling Products		
<ul style="list-style-type: none"> • Tipping Skips • Lifting Jibs • Lifting Hooks • Goods Transfer Platform • Spreader Beam • Wheelie Bin Handlers • Big Bag Handlers 	<ul style="list-style-type: none"> • Fork Extensions • Fork Protection Sleeves • Goods Transfer Platform • Safety Access Cages • Tipping Skips • Wide Load Stabilisers • Sweepers 	<ul style="list-style-type: none"> • Drum Grabs • Rim Grip Handlers • Drum Rotators • Lifting Jibs • Rotary Sweepers • ATEX Certified Products

Our range of products for these sectors is second to none

Designed and built in the UK, the quality speaks for itself. And our customer support, technical advise and shipping expertise will ensure we maintain long-term business relationships with you and help build your client base.

By being appointed as an official re-seller of Contact Forklift Attachment's product range, you will have the unrivalled opportunity to represent a recognised and highly trusted company that has a reputation for providing quality products and services to the ever growing material handling market.

Partner Benefits

All Contact Fork Lift Attachment official re-sellers will benefit from our comprehensive export support package to include:

- ✓ **A Dedicated team of Specialists**
- ✓ **Customer Service**
- ✓ **Full Technical Guidance**
- ✓ **Marketing Support**
- ✓ **Shipping and Logistics**
- ✓ **We work with our partners to help build your business**

Sea Freight Door-to-port or door-to-door services.

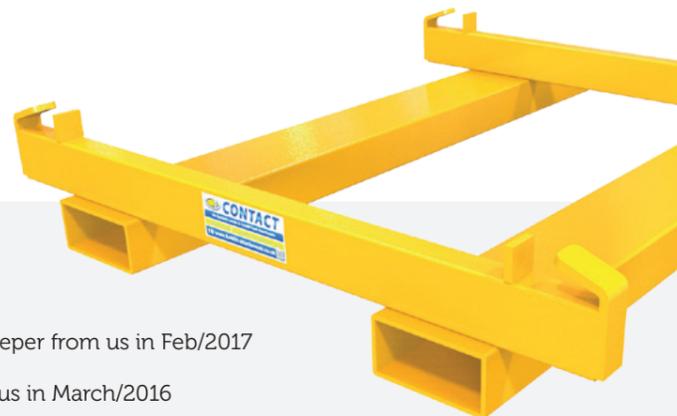

Recently FAMCO (Al-Futtaim Auto and Machinery Company) reached out to Contact Forklift Attachments after meeting a representative from Contact in Qatar. FAMCO required a bespoke Forklift bag handler for one of their own clients.

The end user was handling bags from 1500x1500mm pallets and needed a safer and more cost-effective solution for handling heavy bags. Contact were able to customise the bag handler to meet the end user's requirements. The pole required needed to be extended to 1600mm long and also needed to be upgraded to hold the capacity of 1500kgs.

Aamir Khan, Assistant Product Manager at Linde MHE, explained: "We have previously used forklift forks to handle heavy bags, which was proving to be time-consuming, inconvenient and unsafe, so we looked at the services of a reputable company to provide us with a more stable solution. Having already met a representative of Contact Attachments in Qatar, who introduced its product portfolio, we contacted them again and based on the prompt support and guidance they provided, we quickly placed the order for the Forklift Bag Handler."

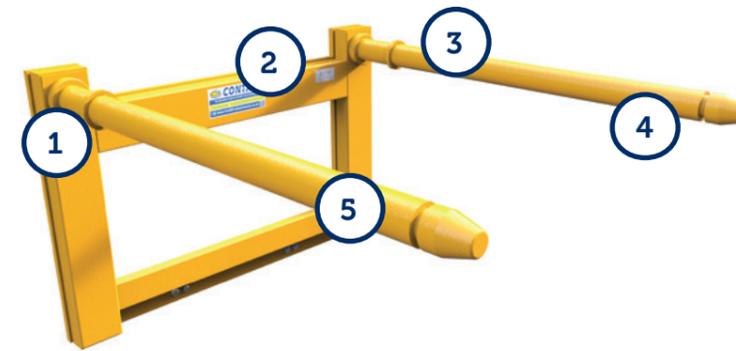

"They were very satisfied with the product they received, and pleased to say, are now able to handle heavy bags more effectively, and much safer, than before. FAMCO was kept updated with the production and shipment progress at all stages, and we even received a courtesy call post-delivery from the team to ensure the attachment met our client's requirements."

Other companies sold to in Saudi

Hana Food Industries Company purchased a forklift magnet sweeper from us in Feb/2017

Hamed Al-Quraishi Trading purchased a forklift drum grab from us in March/2016

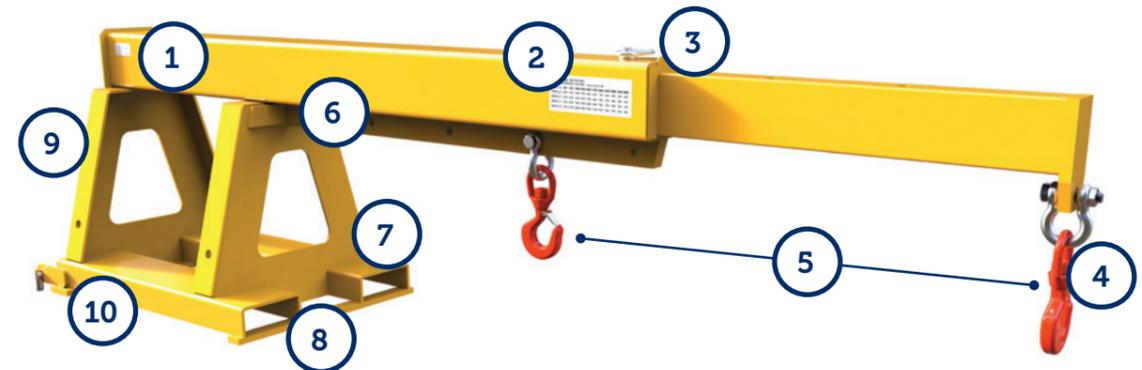

CBBT Features
